## TAKE PRECAUTIONS.

Since the flu has again made its appearance in our midst we must impress upon our readers the great importance of taking every precaution to prevent its getting another wide foothold as it had during the earlier stages of the epidemic.

So far it does not appear to be necessary to go to the extent we did during the last outbreak, but unless the strictest attention is paid to the quarantine laws, and every effort made to keep it well under control, there is no telling how soon we will have to go back to the tightening up of the strings adopted a few months ago.

We have heard of cases where people were going and coming to and from houses where there were flu patients, and mixing with their neighbors. This is not right and people who do these things are not fair to those with whom they come in contact.

We are also informed that there are parents who have neglected to report other contagious and infectious diseases to the proper authorities. For their benefit we might remind them that there is a heavy penalty for neglecting to report to the medical health officer any cases of small pox, chicken, pox, diphtheria, scarlet fever, typhoid fever, measles, whooping cough, mumps, etc., in the home. And this must be done within twelve hours after the parent ascertains or has reason to suspect that any person within the house has any of these diseases.

## BOY SCOUTS.

Although we have heard very little of the Boy Scouts lately we understand they are meeting regularly and taking a keen interest in their work.

This is one organization in town that should be encouraged in every possible way, not only by the parents of the boys but by our citizens generally. The objects of the scout movement are in the right direction, and there is no doubt that a real live scout organization in a town plays a very important part in the lives of our boys.

Just now a movement is on foot in other parts of the province to arrange an outing for Boy Scouts at Banff some time during next summer holidays. We see no reason why the Redcliff Scouts should not participate in this outing. It seems to us that this could be very easily arranged if some concerted action on the part of the boys themselves and our citizens were started now. Let us get together and make it possible.

## WORKERS WANTED.

At the present time the Red Cross Society here has a large amount of material on hand, which is lying idle for the want of women to sew it up. The goods are badly needed at this time both in Canada and in the old country. Although hostilities have ceased and our boys are now coming home in large numbers, it must be remembered that there are still a large number of soldiers in hospitals and that they need these com-

forts just as much now as ever. If the ladies would only turn out with the same energy and enthusiasm as they did during the war we are informed that it would only take a week to get well caught up with the work. The rooms will be open all next Tuesday afternoon and during the afternoon refreshments will be served. On this occasion a special effort will be made to get everything cleaned up and get all the material out to the different homes in town. Every home in town should be represented at this meeting. Let the sewers come forth and sew. The soldier boys in the hospitals will reap the benefit.

## FUTURE PROSPECTS.

Canada will need every cent she can scrape together to acquire sufficient funds to establish credits for the business it will have to do if it is to become even moderately prosperous and if it is to avoid the desperate scourge of unemployment. Trade can be developed in many quarters of the globe if Canada can supply her own credit. This was made clear during the past week by dispatches from Ottawa to the effect that the Dominion could work up an excellent trade in the Balkans if she were prepared to finance herself by furnishing the necessary credits. Canada can do this if every citizen will co-operate. The funds and resources are available if they are rightly applied. It is all a matter of centering our money and centering our efforts, and this important function can be best performed at the present time by a universal support of the War Savings Campaign through investing in Thrift and War Savings Stamps. This investment really fulfills a triple purpose. First it enables Canada to meet an extremely difficult reconstruction period by building up an export trade that will establish a balance on the right side. Second it will provide work for the returning soldiers and for other unemployed and will help to restore Canada's industrial conditions to their normal state. Third it encourages the practice of thrift and pays an attractive rate of interest on the investment. No other province in Canada is more vitally affected by this campaign than is Alberta. This has been and will be a borrowing province for some time. If money is not to be obtained disastrous complications will follow. Albertans cannot afford to be indifferent to this campaign.

We have heard several complaints lately about the bad habit some people in town have of allowing their horses and cattle to roam at will on the streets. Several cases have been brought to our notice where this stock has completely ruined young trees on our streets and on private property. Goodness knows we have not so many of these trees that we can stand any weeding out. It is very discouraging indeed for people who have gone to the trouble of trying to beautify their homes and our town to have the trees which they have nursed up for two or three years, ruined in one afternoon. People who are so thoughtless as to feed their neighbors should be made an example of.

The announcement that C. N. R. branch line will be built into Redcliff this year is good news to the people of this town and district. With our increasing industrial development the question of additional railway service is a very important one. The fact that this is a line running practically north and south is also an important matter, as it not only opens up new territory but will go a long way towards solving the freight problem and create a more favorable market for much of the materials manufactured in this town.

If the predictions of Mr. Hoover, food controller for the United States, come true, Canadian farmers need have no cause for worry over the price of this year's wheat crop.

## Advocates Blue Grass For Alberta Cattle

Are you a resident of the blue-grass province? Never heard of the blue-grass province? What ignorance! Then listen to the tale told by W. W. Brown, president of the Dauntless Manufacturing Company, of a meeting with Col. W. H. G. Colwell, now one of Alberta's largest producers of pure-bred Hereford cattle.

Mr. Brown met Mr. Colwell in Calgary during a recent visit to the provincial metropolis. They had a long talk, during which the colonel told an interesting story of the growth of blue-grass seed which he imported from his ranch in Kentucky and gave a portion to some of the leading ranchers of the province.

"Nothing in the province grows so luxuriantly except stink-weed," is the way Mr. Brown quotes the colonel. The colonel in turn quoted the ranchers to whom he had presented the seed. Here are his words as Mr. Brown repeats them:

"The Albert seed is just the thing for blue-grass. It grows here as wonderfully as it does in Kentucky, and that is saying something. A quantity of seed from my ranch in Kentucky and distributed it here. I gave some to George Lane, James Smith, Downing & Sons, and other cattlemen. Every man of them tells me that it grows wonderfully well. Think what this means."

The colonel Mr. Brown explains, has a beautiful ranch down the river twenty miles from Calgary, where he produces the finest pure-bred Hereford cattle reared on the continent. He has taken nearly a hundred top championship prizes in the Pacific coast fair circuit last year and exhibited them with marked success in every big city on the Pacific coast, in Seattle, Portland, San Francisco and Los Angeles. These fine head of cattle created quite a sensation among the cattle experts, thus giving Alberta a class of favorable advertisement which nothing else could give.

"The colonel," says Mr. Brown in describing him, "has the distinction of having served with our country's forces in the civil war, and you learn this fact you are astonished because he does not look old and has been born at that period. He is typically Kentuckian in appearance and loves the old state with all the ardor of his native sons, though this does not cause him to love Alberta less. He speaks with the slow, easy manner of the typical Southerner, impresses you with the simple frankness of his expressions. I might almost say boyish honesty of his words and is of a most likable personality generally. I may say that I consider it was fortunate in having met the famous cattlemen."

Mr. Curtis, Mr. Brown further explains, is planning extensive exhibits at the Calgary bull sale and other exhibitions of Western Canada. His Canadian ranch properties are among the most desirable in the province and he has a horse drive by motor from his city. With the usual free-handed method of the typical Southerner he maintains an office in Calgary for his convenience.

## Government Will Supply Seed Grain

That the provincial government will stand security for an advance of over \$700,000 in the purchase of seed grain throughout Alberta during the next three months was the subject of a long discussion at the meeting of Hon. Duncan Marshall, the legislative Friday.

## Might See Wheat At \$2.50 a Bushel

Discussing the world wheat question and possible prices, Food Controller Hoover says:

"The needs of Europe are larger than our previous estimate. Altogether the balance of the supply and demand for our present wheat now looks as though we might see wheat at \$2.50 a bushel, as it was in the spring of 1917, if there is a free market in wheat and uncontrolled prices so much for the 1918 crop. There can be no free market of 90 per cent of the world's exports. Wheat is controlled by the wheat executive in London."

"As to the 1919 crop, it is, of course, too early to come to any precise conclusion. Our crop looks anything from 10 to 20 per cent greater than last year. Before the war, Russia, India, Bulgaria, Serbia and Roumania all exported large amounts of wheat. The war, famine, loss of seed and lack of fertilizers, and anarchy have cumulated to turn these countries into importers of wheat for the whole of next year. Central European seeding will be below normal. The Australian 1919 crop is small; the Argentine crop is no larger than that of Europe. Altogether it would appear now that there would be no bread to waste in any quarter of the world for the next year."

Recently there was some talk of Great Britain relinquishing Gibraltar to Spain in return for Spanish Morocco, but the Spanish minister, denied last Saturday that he had said that Spanish Morocco would be bartered.

March 1st, 1919.

## Canadian Packers Get Big Orders

That orders for two-thirds of the pack products in the hands of the banks of the Canadian packers of Feb. 1 have been received through the government and will be distributed among the pack-pickers is the news in packing circles.

However, there will still be left a large quantity in the hands of the packers.

A change in the attitude of the British government regarding the plan to sink German warships has been noted since the return of Premier Lloyd George to Paris. It now appears probable that instead of the German craft being sunk, Great Britain will be willing to permit France and Italy to keep some of the ships, but will consent to sink her own.

Any protest against the granting of the above mentioned lease must be forwarded to the Minister of Public Works, Edmonton, within thirty days from the date of this notice.

Dated at Bowell, Alberta,  
 JOSEPH DARRAUGH, Applicant.

March 1st, 1919.

## What Is Being Done In Other Provinces

In the province of Ontario and Saskatchewan a director of co-operation and marketing instructs the farming community as to the advantages of co-operation in disposing of their farm products. Assistance is given to inexperienced men to enable them to organize in a way to avoid mistakes and to assist them to systematize and simplify their business transactions. These men are supported by funds provided by the Dominion government under the Agricultural Instructions Act. According to the report on the work done under this Act in 1917-18, thirty-five associations in Ontario did business to the amount of \$900,000, while Saskatchewan ran over the \$2,000,000 mark. This is but one of the many activities carried out and dealt with in the report which is distributed by the publication branch of the Department of Agriculture at Ottawa. Under this Act Ontario, among other provinces, is extending the teaching of household science to rural schools. Through the funds provided school boards purchase equipment especially suited for one-roomed schools. These are especially valuable for rural schools, as it enables children to partake of a "warm lunch" at the noon hour. Household science thus given does not consist of cooking only, but also includes lessons in cleaning, general household management and sewing. Manual training is also provided for by instruction in simple mechanical drawing and the use of tools in making articles for the farm and farm home. Education of this type is referred to in the report as both cultural and practical.

### THE HOME AND THRIFT.

The school may do much to teach thrift among the young, but it cannot do so much as the home. In this the majority of the nation, the fundamental things of life are instilled into the mind of the child. In proportion as this is done well, or badly, will the next generation make valuable citizens.

The people of France, Belgium and Holland are famous for their thrift. How did they become so? Through the influence of the home. Necessarily combined with good sense, years ago taught the fathers and mothers in these countries to be thrifty and the lessons of thrift have been faithfully handed down from one generation to another.

The rising generation of Canadians will be thrifty if thrift is taught and practiced in the homes of this country. The school may do much to promote saving, but it cannot do nearly as much as the home, since the former only has the child for a few hours a day.

War Savings and Thrift Stamps are the best means of teaching and practicing thrift at home. They are with in the reach of all, and they pay well. No well regulated home should be without them.

## Ontario to Vote

### On Prohibition

Hon. T. W. McGarry, provincial treasurer, said a wide open referendum on the prohibition question will be taken in Ontario possibly in September next or sooner for the people to determine what measure they want. "I believe the people will be able to vote on the question in a very open fashion," he said.

### LADY LAURIE DECLINES.

It is asserted that Lady Laurier has been approached by the government to see if she would accept a pension, says an Ottawa dispatch. While deeply appreciating the compliment to her dead husband, it is understood that she has declined it, feeling that she has been left sufficiently well provided for. Twenty years ago Liberal friends of Sir Wilfrid arranged an annuity of \$5,000 and this has been accumulating for sixteen years. He has been getting \$2,000 annually as a member and \$7,000 as leader of the opposition, while his house has increased in value from \$7,000 to \$40,000. His savings were judiciously invested, and the investments have increased in value.

Preliminary details of the government's plan to run a railway all its own are disclosed in the terms of a resolution introduced into the house providing for a bill governing the Lacombe and Blindman's Valley Companies, which the province is taking over to operate.

It is officially announced that the headquarters of the Lord Strathcona permanent force is to be removed from Winnipeg to Calgary. It has also been decided to retain the Princess Patricia as a permanent regiment with headquarters in Toronto.

MAYOR MARSHALL, of Calgary, who strongly urged all to support the Thrift campaign.

## Government Appoints Receiver for G.T.P.

Hon. J. D. Reid, minister of railways, has been appointed receiver of the Grand Trunk Pacific Railway system. The appointment follows an official notification which Sir Thomas White received on Thursday from the vice-president of the Grand Trunk Pacific, a notification that in view of the fact that the increased rates applicable to the Grand Trunk Pacific Railway have not been sufficient to meet the increased operating expenses, it would not be possible for the company, owing to lack of funds to continue its operations beyond Monday, March 10.

In view of this notification, it became necessary that the government should in the able interest immediately take steps to ensure the continued operation of the system. Under existing legislation by an appointment to the courts for an appointment of a receiver. The War Measures Act, however, was found to provide adequate authority for action by the government, and consequently an order-in-council was passed, appointing the minister of railways receiver of the Grand Trunk Pacific Railway system, which includes the lines, telegraph, steamship departments and other companies.

## To Continue

### The Union Party

An early announcement is expected that it had been decided to form a Union party; to form committees to commence organization, and to call a national convention of Conservative and Liberal-Unionists in the fall to draft a platform. These three things are being advanced by those who desire to see a permanent party cemented.

## Insurance Company

### For Saving Cause

One big insurance company operating in Canada has voluntarily guaranteed to dispose of \$10,000,000 worth of National Savings and Thrift Stamps this year. To make sure that this promise is fulfilled it has taken its employees off their regular work and assigned them to missionary duty in behalf of the movement.

In Alberta this company has turned nearly one hundred energetic men loose. These are devoting themselves primarily to forming National Savings Societies, and when this field is covered they will devote themselves to individual canvassing. They have the full sanction of the Dominion government.

### THE SKUNK AND THE HUN

A decent sort of German soldier was brought into a prison camp in France in which an Englishman and an American were on duty. One day a skunk sneaked into the camp and entered a small building. The American met the Englishman at that he could not remain in the building ten minutes with the skunk. The bet was taken and the Englishman went in. In six minutes he came out. The American was challenged to enter on the same terms. He went in and came out in five minutes. The German prisoner, who had witnessed the defeat of the Englishman and the American, offered to bet that he could remain inside with skunk for ten minutes. His bet was taken and he disappeared within. In exactly one minute the skunk came out.

## Siberian Forces

### To Return Soon

Major-Gen. Mowbray, in the course of his speech in the federal house, announced that the Siberian force would return to Canada soon. He said that of the ex-soldiers of the department of militia were recalled the Canadian Soldiers will all be home by August, and stated that the question of the sending of a Canadian expedition to Canadian soldiers and to next of kin who lost their lives in service is being considered.

## Riots in Canadian

### Camp Proves Fatal

Fatal rioting in a Canadian military camp in Wales is the unpleasant news which came by cable last Saturday. From what was learned the trouble arose among some soldiers of foreign extraction and was caused through discontent because shorter term men were being returned to Canada ahead of longer service men. The Canadian military authorities handled the affair without any aid from the Imperial authorities, and most of the five deaths were caused by trampling rather than shooting.

## U.F.A. Prepares

### For Convention

Independent political action on the part of the United Farmers of Alberta has been advanced a further step by the sending out of a questionnaire to all locals.

In implementing this, H. W. Wood, the president, states:

"If you are going to make your convention a success it will be necessary for each local to do its full share in co-operating to that end. Select a full delegation to attend the convention. Select the very best men you have. Men who are thoroughly interested in making political conditions better. The man who has no idea except taking advantage of an opportunity to get into office himself, will be a hindrance, rather than a help to the convention. But if you have a man who is not seeking office, but who you think would be good material for that purpose, be sure to send him. Send the most level-headed, practical men or women you have. The convention will need all the good practical common sense it can get out of your local."

## Neutrals Invited

### To Peace Conference

An invitation has been sent out to all neutral nations in Europe, Asia and South America asking them to attend a private and unofficial conference on Thursday, March 28, with the object of giving neutrals an opportunity to present their views on the league of nations. The invitation sent by the conference authorities to the ministers of the neutral powers in Paris, and they have forwarded it to their governments.

Switzerland has already replied favorably to the suggestion. No South American governments have yet answered.

A strong sentiment is developing in high quarters of the conference towards making Geneva the official seat of the league of nations. Several of the heads of the delegations who have been consulted have given their approval.

## Wilhelm Branded

### As Greatest Criminal

The preliminary peace treaty, probably will include a clause requiring Germany to turn over all officials found responsible for war crimes, to be tried by an international tribunal. While the responsibilities committee is not expected to complete its report for several days, it is understood a decision has practically been reached in this regard.

Regarding the former Kaiser, the committee is expected to find that he cannot be legally extradited, also that it will be difficult to determine his personal responsibility for the war charges against him. A suggestion has been made, however, that the Germans themselves try to obtain his removal from Holland. If there is no other alternative, it is understood an international indictment will be published, branding Wilhelm as the world's greatest criminal, his punishment being limited to this historical document.

THE REDCLIFF REVIEW

### C. P. R. TIME TABLE

For the convenience of the public we have added to announce the hours of departure of trains at the C. P. R. station here. They are as follows: West bound, No. 5, leaves at 11:50 a. m., and No. 1, at 11:59 p. m. East bound, No. 4, leaves at 8:40 p. m.

### ITEMS OF LOCAL INTEREST

Wm. Purina, manager of the Rolling Mill here, was on a business trip east this week.

R. Black returned to town this week after spending a month in Saskatchewan on business.

For having a private still in his possession, a Carmo man named Franz Schultz, was fined \$1,000 or a year in jail.

Reuben Goertz, who recently returned to Canada after being two years a prisoner in Germany, was in town visiting friends last Tuesday.

Miss Page, who has been stenographer at the town hall for the past year, has accepted a similar position in the Rolling Mill office.

Mrs. Kaake, who has been visiting her parents, Mr. and Mrs. W. Henderson, here, for the past two months, returned to her home in Delisle, Sask., last Tuesday.

During the eight months which the creamery at Carleton has been operating, 172,785 pounds of butter were manufactured and sold, and more than \$74,000 was paid to local farmers for their cream.

At the Red Cross rooms next Tuesday afternoon refreshments will be served and an effort is being made to have a speaker address the meeting. All interested are urged to attend.

Alberta will have a new district health insurance act in force for 1936, a majority of the municipalities having voted in its favor. This new venture in the realm of health insurance will be watched with considerable interest.

Pte. Geo. Smilie, who at one time resided here, having worked in the Broadway store and with W. Keats, returned from the front this week. He arrived in Medicine Hat on Tuesday and is at present staying with his sister there.

The debate arranged between scholars from Medicine Hat and Redcliff schools tomorrow (Friday) evening, will be held in Reid's hall instead of in the school as announced last week. Parents of the children in the higher grades are invited to attend.

W. H. A. Anger, who was standing trial on a charge of manslaughter at the supreme court sitting in Medicine Hat, was acquitted. It will be remembered that Anger accidentally ran into and killed a man on a bicycle last September.

W. T. Oates and F. Congram met with an accident while engaged at their work in the Rolling Mill last Saturday, which fortunately, did not result as seriously as it might have. They were working with an air drill run by high pressure gas, and as they were in one of the furnaces a lantern was used to give them light. In some way the lantern and the escaping gas didn't agree and an explosion followed. Both men were badly burned about the face and hands but they were able to return to work Monday morning.

The Medicine Hat school board has decided to engage a school nurse at a salary of \$100 per teaching month.

A seed firm in Brandon, Man., has shipped 2,500 pounds of vegetable seeds to Vladivostok, Russia.

A scheme is now on foot to establish a social service between Edmonton and Dawson city.

There are still a few cases of the flu in town but so far no serious cases are reported.

Work Shoes: hard work made easy. Wear Elk shoes and buy them at the Hicks' Trading Co.

New Spring goods: a large stock just in. Men's and boys' suits, overalls, mitts and gloves, odd pants, all best grades, at Hicks' Trading Co.

Mrs. Wm. Baldwin received the news this week of the death of her grandmother, which occurred at New York, New York, on the 28th of February last.

A social evening is being held in Reid's hall tonight as a farewell for C. V. Gibson and Geo. Ross, who are leaving shortly for their farms north of Calgary.

The Ladies' Aid of the Presbyterian church will hold a tea in the church on Monday afternoon, March 15th, from 3 to 6 o'clock. All are invited.

Meas. C. V. Gibson and Geo. Ross are making preparations to leave for their homes next week. They will take with them a car-load of stock and implements in readiness for putting in a crop this spring.

A meeting for the purpose of moderating in a call for a new pastor will be held in the Presbyterian church here next Monday evening, March 17, at 8 o'clock. All interested are urged to attend.

Great War Veterans Associations throughout the province are advocating the releasing of all grating lands in districts adapted for farming. They claim this will simplify the land settlement problem.

Mr. and Mrs. Herb. Moore entertained a number of friends at their home last Tuesday evening. During the first part of the evening progressive whist was played and after a dainty lunch a musical hour was spent. In the whist contest Mrs. MacLachlan and Geo. Ross won the prizes.

A jolly sleighing party took place last Monday evening and as the weather was ideal for such an outing, a most enjoyable evening was spent. After a drive to the Hat and return the party was entertained at the home of Mr. and Mrs. Hicks T. A. Hicks, where a pleasant social hour was spent.

The Redcliff hockey boys went to Medicine Hat last Thursday evening and played a friendly game. Considering that our boys have had no practice this winter they put up an excellent game, only losing out by 5 goals to 3. The local seven go to the Hat again tonight and so Duggan is on the line-up, they expect to put up an even better argument.

Mrs. R. Hamilton entertained a number of young people to a pleasant social evening last Friday in honor of Miss Buchanan, who left the following day for her new home in Edmonton. Progressive whist was played during the evening and the prize winners were Mrs. W. T. Oates and C. F. MacLean. Mrs. W. T. Oates won the consolation prize. A most enjoyable evening was spent.

Robt. Hamilton and his son Willie, who have been at the Pacific coast all winter, returned home last Tuesday.

Seventy new coal mines were opened in Alberta during the year, also as well as nine which were re-opened.

Blundell can handle your new or renewal subscription to any newspaper or magazine, at the publishers' rates. Deal with your local agent; it's safer.

The month of March so far has been the only month this winter that we have had any winter weather. But as it came in like a lion it will probably go out like a lamb.

Mr. and Mrs. A. J. Learmonth entertained the whist club last Thursday. Besides furnishing a most enjoyable evening, a nice sum was collected for the G. W. V. A.

Since the writer couldn't win the prize for the largest egg he is now making a bid for prize for the smallest. In going the rounds of the henery yesterday we got one that is too small to measure or weigh. It is an office, if you think you have one that is smaller bring it along and we

will compare them under a magnifying glass.

Announcement was made in Medicine Hat that a contract had been signed with a leading tractor industry of Minneapolis for the manufacture of tractors on a large scale.

FOR SALE—Cheap, one Ford touring car in good condition; also one Hummable touring car in A 1 condition. Apply H. W. Fred First st., E. W., or phone 28.

### NOTICE To Employers

The Workmen's Compensation Act, 1913, provides that every employer of labor coming within the scope of the Act shall forward each month a statement of his payroll to the Workmen's Compensation Board, at Edmonton.

As the Act is now effective, employers should at once communicate with the Secretary of the Board, who will forward such forms and information as are necessary.

THE WORKMEN'S COMPENSATION BOARD, Edmonton, Alberta.

## Motor Truck

# DRAYING and TRANSFER

### THOS. CROOKS

## Have you bought your THRIFT STAMPS

We sell them

### Put your THRIFT STAMPS on an Earning Basis

Remember, when you are filling up your Thrift Card, that the 25-cent Thrift Stamp, which you can buy wherever you see the above sign, are simply a means to an end.

Thrift Stamps earn no interest.

The interest begins when your Thrift Card, filled with 16 Thrift Stamps, is taken to the Money-Order Post Office, Bank or other place displaying the Beaver-Triangle sign, and exchanged as \$4.00 in the purchase of a War-Savings Stamp, which costs \$4.02 this month.

War-Savings Stamps earn 4½ per cent compound interest, being redeemable on January 1st, 1924, for \$5.00 each.

BUY WAR-SAVINGS STAMPS

—LOST—Near the school, on Saturday last, a child's black gaminet. Finder will kindly leave same at this office.

FOUND—On the prairie, one day last week, a saddle. Owner can get same at this office by paying for this ad.

STRAYED—Onto my place about March 6th, one Holstein cow. Owner may have same by calling Belle Watson, 10-3, Redcliff, Arlington addition. 10-3, or phone 28.
